1 ³ C5069	Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is to find and return an integer value representing the smallest prime number larger than N. Input Format:	
369 3BR		
3BR13C	Return an integer value representing the smallest prime number larger than N. Sample Input 6 Sample Output
